

## Effective Studies Seminar

Dear Friends

In cooperation with local teams we had the possibility to teach our Seminar "Effective study" at five universities in a closed country in East Asia. Our seminar helped to open two new Campus.

More than 1000 Students came to attend our Seminar and in the first 2 days after the seminar 12 students received Christ.

I was mostly fascinated by...

the freedom we had to talk about the holistic lifestyle in all its four areas, mental, emotional, physical and spiritual (!). In this context, we were able to share a personal testimony. For me it was almost incredible to speak out the name "Jesus" in a governmental lecture hall and this in a land where churches have to meet in hidden places. Anyway no one made a check on us. And this was for sure a gift from our heavenly father

At one university, after an afternoon of distributing flyers and inviting to our Seminar, we were very surprised as far more students were coming than we expected! Although it is not the number of students which counts, it was so encouraging to see Gods smile behind the 600-students-crowd which had come to attend our Seminar. We had to teach in two rooms at the same time! Thanks to God it worked! And it was not only a blessing for us, but also for the local team. Through this evening, they had about 50 to 100 new contacts to students which would like to keep in touch. These students had indicated on the feedback sheet that they are interested in developing the spiritual area of their life. On October 17 and 18 we teach the seminar at the university of Zurich Switzerland. People here are much less open than in Asia. But we pray, that many of those students will meet Jesus.

Glory be to God!

Urs Wolf, NCD Switerzland
